Why we using ORCID?

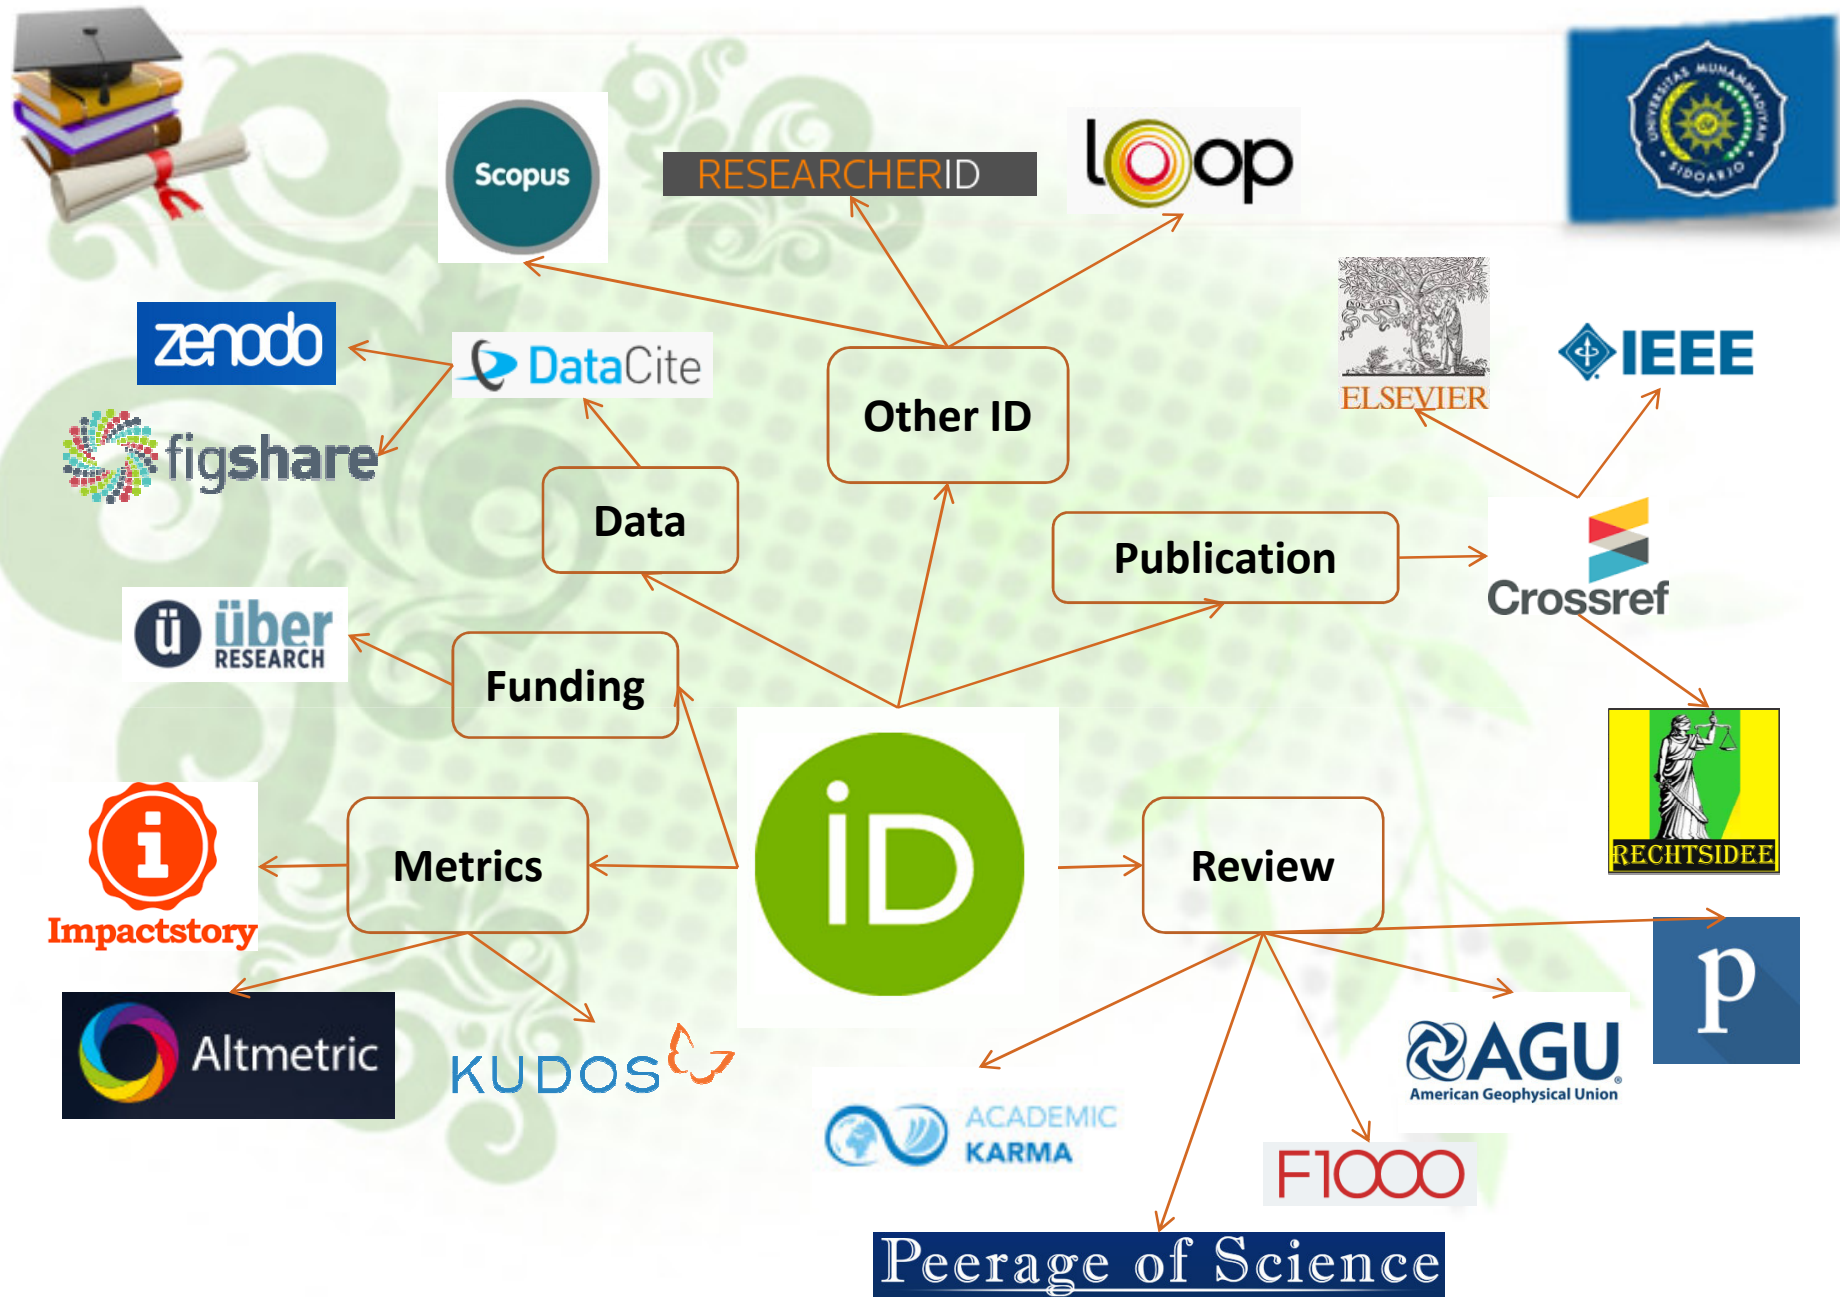

1. As Researcher
2. As Publisher
3. As Research Institution

As Researcher

- Research
- Review
- Contract/Grant/Award
- Connect your other ID

Research

- Create your ORCID ID (Authorize Crossref, Scopus, and Datacite on your work menu)
- Publish your data (get DOI on it)
- Publish your pre-print article, get DOI on it. (Dont Forget to Sign in with your Orcid ID)
- Communicate your pre-print and get Pre-review via PaperHive, Academic Karma, Arxiv, BioRxiv, SocArXiv, OSF, Zenodo, Figshare, Peerage of sciece, Research Gate, etc

Research 2

- Find your suitable journal (Journal with DOI).
- Check their publication policy (OA Grade => Sherpa Romeo or in their Copyright Notice))

GREEN, YELLOW, BLUE, or WHITE OA.

Only Green and Yellow allow pre-print.

- Sign in to journal with your ORCID ID, Submit your paper.
- Published, (Appear in Google Scholar, Dont forget to create your Gscholar profile)
- Just wait, and your ORCID ID will be automatically update.
- Sign in to Impact Story/growkudos using your ORCID ID. To see your “actual” impact

Scopus | ORCID

Send Scopus Author details and publication list to ORCID

Your publications on Scopus may be spread over a number of different Author profiles, because these are generated automatically.

ORCID(Open Researcher and Contributor ID) seeks to remedy the systemic name ambiguity problems seen in scholarly research by assigning unique identifiers linkable to an individual's research output. If you have not yet created an ORCID profile, you will be able to do so during the process that follows; alternatively, you can register first at <http://orcid.org> and then import your works from your profile page.

The Start button will take you to the ORCID site, where you can give permission for us to read your ORCID record (in order to find your profile(s) in Scopus), and send your ID to ORCID. If you choose to send a list of your publications to ORCID at the end of this process, we will repeat this to gain permission to update your ORCID record.

Review

Peerage of Science

F1000

- Create your ORCID ID
- Sign In to Publons.com using your ORCID ID
- Setup “automatically export verified reviews to ORCID”
- Insert your review (pre or post review)
- Get verification for them (through editor confirmation, “review acknowledgement” email, or journal integration)
- and your ORCID ID will be automatically update with your verified reviews.

BIO

I was a lecturer of business law, contract law, intellectual property, and employment law, at the Faculty of law of University of Muhammadiyah Sidoarjo. For 3 years I was active as Editor in Chief of the journal Rechtsidee, an international journal in the field of law published by the University of Muhammadiyah Sidoarjo.

I am getting a law degree from the University of Muhammadiyah Malang, and master's degree from Airlangga University.

I have experience as a lecturer for three years. and as a Professional in the field of law for five years

THE CONCEPT OF VILLAGE AUTONOMY IN INDONESIA (INDONESIAN CONSTITUTION PERSPECTIVE)

Rifqi Ridlo Phahlevy

ABSTRACT

Indonesia was introduced to the term, "village autonomy" in 1970s; however, throughout the past years of establishing autonomous villages in Indonesia, the legislators have not been able to provide any clarity about this concept. Villages, as a legal entity, do not have enough independence to represent themselves as an autonomous unit of community in the state administration system of Indonesia. Article 18B and 28I of the second amendment of The 1945 Constitution of The State of Republic of Indonesia (UUD 45) state that the villages can have independent governments, by giving the alternative of village autonomy. Implementation the Law No. 6 Year 2014 is a part of the effort to realize the message of constitution and hence conception of autonomous villages is expected to be the catalyst for this concept. The presence of this law had a considerable impact on the 2014 presidential elections. Because of this people are concerned that political interests may try to drive and turning the direction and purpose of the law. This study is a part of the research on the implementation of village autonomy policies in Indonesia, and is compiled by using statute and conceptual approach. **How To Cite:** Phahlevy, R. (2016). AS RESEARCH INSTITUTION

Mochammad Tanzil Multazam, S.H., M.Kn./Universitas Muhammadiyah Sidoarjo/Jl. Majapahit 666 B, Sidoarjo, Jawa Timur, Indonesia, +6231-8945444 Ext 189

Universitas Muhammadiyah Sidoarjo

- Private University in Sidoarjo, East Java
- Arround 7500 Active Students
- Arround 213 Active Lecturers/Researchers
- Divided in 4 Location, 3 in Sidoarjo, 1 in Surabaya.
- Establish as University in 2000.
- <https://umsida.ac.id>

Our Weakness

- **Doesnt have proper researcher publication management system**
- **Doesnt have proper indexing institusional repository → Under Development**
- **Doesnt have proper control in researcher scientific journal publication**
- **Doesnt have professional scientific journal system**

Another Problem

Researcher doesn't/can't manage well their research and publication. Reason:

1. lazy;
2. busy;
3. “government minded”;
4. “Tech Allergy”;
5. Less Knowledge in Tech.

What we do?

- Strict publication policy (only publish in DOI provided journal)
- Use publication metric tools to measure our impact (e.g. google scholar, impact story, kudos, altmetrics)
- Use persistent identifier to publish our scientific publication data. (ZENODO-> DOI, Figshare->DOI, dataverse->handler, etc)
- Created ORCID for Researcher, distribute them, and socialize how to use it.
- Rapid workshop regarding online academic tools.
- Use ORCID to collect them all.
- Use ORCID API to Retrieve university member public data (Under Development)

Other thing we can do

- Manage institution research funding, by authorize award of awardee in their ORCID ID (Member Only)

Our Next Step's

- Upgrade our current OJS to OJS 3 (ORCID Sync Supported)
- Provide “Sign-in” with ORCID into our academic system.
- Retrieve our University members public data using ORCID API (Occasionally).
- List journals around the world with strict criteria (to avoid predatory journal and un-DOI Journal), and insist our researcher to publish only to that journal.
